Erasmus+ Fact Sheet for KA 131 Partner Universities

The University of Bonn

The University of Bonn was founded in 1818. Home to about 31,500 students, the University is one of Germany's largest academic institutions and, with more than 4,800 international students from all over the world, also one of the most internationally oriented. A wide range of courses, an outstanding reputation in teaching and research and a unique location make the University an especially attractive place to study.

Bonn, the former federal capital of Germany, is located on the River Rhine and is a center for the Rhineland way of life, art and culture. In 1989, the city celebrated the 2,000th anniversary of its founding as a Roman settlement. With its 21 UN agencies, Bonn is Germany's "UN city" and hosts around 150 international organizations.

The city is also the birthplace of Ludwig van Beethoven, has a beautiful historical center with a daily market, numerous museums and many other buildings and events of significance and cultural interest.

The University of Bonn has 35 years of experience with the Erasmus Programme, so Erasmus students who choose it can expect to be supported by its full range of student services including language courses, an orientation program and academic guidance. During the semester, the International Office offers an extensive cultural program as well as various other initiatives to ensure cultural immersion and intercultural experience.
